KOREAN COMMUNITY SERVICES OF METROPOLITAN NEW YORK, INC

ANNUAL REPORT

2022

About Us

**Supporting
Our Community
Since 1973**

Founded in 1973, Korean Community Services of Metropolitan New York, Inc (KCS) is the oldest and largest 501(c)(3) nonprofit organization assisting Korean-Americans and other immigrant communities in the greater New York City area with economic empowerment, social well-being, and health and wellness.

Our Vision

KCS envisions a world where immigrant communities remain grounded in their heritage and work together with the broader community to build a better society at large.

We believe that communities can become stronger and healthier by working together. In supporting our Korean communities in New York City, we hope to forge pathways with other historically under-resourced communities toward a more united, diverse, and prosperous New York City.

KCS' mission is to be a bridge for Korean immigrants and the wider Asian community to fully integrate into society and overcome any economic, health, and linguistic barriers so that they become independent and thriving members of the community.

We accomplish this mission by providing culturally competent programs in the areas of Aging, Education, Immigration, Workforce Development, Public Health and Mental Health.

Our Mission

MESSAGE FROM PRESIDENT & CEO

Dear KCS supporters,

I am honored to share with you the 2022 annual report for the Korean Community Services of Metropolitan New York (KCS). As we reflect on the past year, we are filled with gratitude for the support from our community.

In 2022, KCS continued to provide essential services and support to the Korean American community in The Greater New York Metropolitan area. Our commitment to enhancing the quality of life for those we serve has been a guiding principle for five decades.

I would like to express my deepest appreciation to our dedicated staff, board members, volunteers, and community partners for their tireless efforts in ensuring that KCS remains a trusted resource for our community.

We are grateful for your continued support and look forward to another year of serving the needs of our community.

**Sincerely,
Myoungmi Kim, President/CEO,
Korean Community Services of Metropolitan New York (KCS)**

How We Work

Aging

Our Older Adult Centers and Adult Day Care Center welcome seniors requiring supervised daytime care. We provide meals tailored to their nutritional needs and curate social activities that help strengthen their motor and cognitive skills. Join our lifelong education classes, which include: smartphone fundamentals, autobiography, and dance lessons. We serve across these three location: Manhattan, Flushing, and Corona. Steller home-bound meal services are available through Bayside & Astoria.

Public Health & Research Center

Our Public Health & Research Center facility provides overall health and well-being of our community through culturally and linguistically relevant services. We can help you enroll in free or low-cost health insurance. KCS provides numerous public health services such as mammogram screening, free COVID-19 testing, Hepatitis B screening, and SNAP.

Mental Health Clinic

Since 2015, we have been the first and only State-licensed outpatient mental health clinic in New York operated by a Korean American nonprofit. Our licensed clinicians provide bilingual (English / Korean) and culturally-sensitive mental health services. The Clinic also aims to raise awareness about mental health and in particular, combat the stigma and fear around receiving care in our community.

Workforce Development

We provide low-income, unemployed Asian American seniors with work-based job training at various departments within our organization. Participants engage in community service activities, gaining the work experience and skills they need to pursue unsubsidized employment opportunities.

Education

To help non-native speakers improve their literacy skills, we offer English to Speakers of Other Languages (ESOL) classes. Our Korean classes are for anyone who wants to read, write, and speak Korean. Community members already on the path to becoming U.S. citizens can take naturalization test classes for free. Asian American high school and college students gain first-hand experience serving their communities and learn the importance of public service through internship placements across New York City.

Immigration & Legal Services

We provide affordable and friendly legal services to Korean immigrants. Some immigration services include naturalization, citizenship certificate, travel documents, employment authorization, asylum, U.S. passports, renewal, replacement, registration for permanent residence, or adjustment of status.

TOWARDS FIFTY MORE

As KCS prepares for its 50-year milestone, it is with great joy that we invite you to our 2023 Gala. We could not have reached this historical occasion without the generous support of our Board, Donors, Businesses, and Organizations like yours. Join us at KCS' biggest event thus far to share a moment of reflection for our past, and to celebrate our theme; Towards Fifty More.

KCS is committed to continuing to lead the way by giving to our community, and providing timely and impactful wrap-around services to New Yorkers and beyond. As we look forward to 2023, we hope to amplify our impact by serving more clients, in even more neighborhoods, through more programs and most importantly, with more attentive care.
